Description

The back rest and seat are built on a semi circular construction with finely turned spindles fixed in the semi circle a contrast to the more simple basic more primitive form of the rest of the chair. Resting on 3 legs that arch out from their seat with a scroll carved inside edge to each leg and a flat deep simple apron below the seat. Round spheres on the back rest another unusual decoration. One sheer missing but easy to replace, otherwise the chair is in very good condition.
